

MXSELECT

RAPID CHANGE WEIGHT SYSTEMS

MX30™ DUMBBELL SYSTEM

Includes a Pair of Dumbbells, Weight Plates & Cradles

The MX30 Rapid Change Dumbbell System features our unique MX Select patented rack & pinion selection system: compact size, balanced feel and totally secure.

With the MX30 Dumbbell cradled you select the weight from 7.5-30 lbs [3.4-13.9 kg] at the turn of a dial. The selected weight level is locked into place as soon as the selector dial is pushed home.

The MX Select antimicrobial contoured grip offers surface protection against bacteria, mould & mildew, and other hazardous microbes.

One pair of MX30 Dumbbells replaces a 10-pair dumbbell set, taking up only one-tenth of the space. Safe, convenient, accurate and space-efficient, the MX30 Rapid Change Dumbbell System is a perfect addition to any home workout area.

The optional MX Dumbbell Stand elevates the Dumbbells to provide the sleek look of a professional training studio.

There is also an optional MX Select Adjustable Training Bench to further enhance your training space.
